

⑦のような背景のもと、本県の中でも特に道路の整備が遅れ、紀伊半島大水害においても甚大な被害を受けた南和地域では、「災害に強く、希望の持てる」地域の形成を目指し、紀伊半島アンカールートの早期整備に重点的に取り組んでいます。

中南和地域の活性化及び災害に強い道路ネットワークの形成に向けて

地域観光

御所市

高取町

A street view of traditional Japanese buildings in a historic district, featuring white walls, dark wooden frames, and tiled roofs. The buildings are situated along a paved street with a sidewalk. A small tree is visible on the left side of the street. The architecture is characteristic of Edo-period style, with some buildings having yellow-painted upper sections. The street is lined with power lines, and a few cars are parked further down the road.
